Objective

Enthusiastic and dedicated BCA student with a keen interest in web development, currently immersed in learning the MEARN stack (MongoDB, Express.js, Angular, React.js, Node.js). Eager to apply theoretical knowledge gained through coursework to real-world projects, I am seeking a challenging internship or entry-level position that will allow me to contribute to dynamic development teams and enhance my skills in full-stack web development. Adept at problem-solving and quick learning, I am ready to bring my passion for coding and dedication to excellence to a forward-thinking organization.

Experience

- **Luminar Technolab Kochi**   Nov 2023 - Present
  MERN Full Stack -(Internship Experience)
  Acquired extensive hands-on-experience in front-end technologies. Collaborated seamlessly with cross functional teams on real-world projects, contributing to the enhancement of problem-solving skills and deepened understanding of software development principles
